

12th October 2021

Dear families,

'Squid Game' on Netflix

It has been brought to our attention that some of our students have been talking about the series called 'Squid Game' with a small amount of children saying they have watched episodes. This programme is certified 15 and depicts sex scenes, nudity, extreme violence, self-harm, suicide, bad language. It is certainly not suitable for primary school aged children.

Watching scenes such as those above can have long-lasting, damaging effects on young children and cause long term anxiety.

Should we hear children saying they have been exposed to this series we will treat this as a safeguarding issue and will be speaking to those parents concerned.

Please be very vigilant about what your children are watching, especially if they have older siblings who may want to watch these programmes.

If you have any concerns, or would like further advice, please speak to Mrs Khan, our Parental Involvement Officer.

Yours sincerely,

Helen Haunch
Principal
