Light –

- recognise that light appears to travel in straight lines
- use the idea that light travels in straight lines to explain that objects are seen because they give out or reflect light into the eye. Explain that we see things because light travels from light sources to our eyes or from light sources to objects and then to our eyes
- use the idea that light travels in straight lines same shape as the objects that cast them.

Music

Using Charanga, the children will listen with attention to detail and recall sounds with increasing aural memory. The children will learn definitions of musical terminology including timbre, rhythm, pulse and dynamic. We will use percussion to perform.
